PROFESSIONAL SUMMARY

Full Stack Developer with **2+ years** of experience building enterprise web applications using React.js, Node.js, Python, FastAPI, and SQL. Strong in REST API design, state management, and database-driven applications. Currently building GenAI features by integrating LLMs (Gemini API, LangChain) with FastAPI backends. Seeking Full Stack and GenAI application roles. **Notice period: 30 days.**

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3
Frontend: React.js, Redux Toolkit, RTK Query, Tailwind CSS, Bootstrap
Backend & APIs: FastAPI, Node.js, Express.js, REST APIs, JWT Authentication
Generative AI: LLM Integration, Google Gemini API, LangChain, Prompt Engineering, Structured Outputs, Tool Calling
Databases & ORM: MySQL, PostgreSQL, SQLAlchemy, Alembic
Tools: Git, GitHub, Linux, Hostinger

EXPERIENCE

Full Stack Developer **Jun. 2025 – Present**
Alembic Pharmaceuticals Ltd. *Mumbai, India*

- Led frontend development of the **DMAP** application from architecture to production, with a scalable folder structure, dynamic routing, and reusable components supporting multiple user roles.
- Implemented RTK Query for API integration, caching, and server-state management, **cutting redundant API calls by 40%**.
- Developed backend services in Python and FastAPI: REST endpoints, Pydantic validation, SQLAlchemy database operations, and Alembic schema migrations.
- Integrated the **Gemini API and LangChain** to deliver AI-powered backend functionality, connecting LLM workflows to FastAPI services and structured application data.
- Delivered internal full-stack applications, including MR performance tracking and brand management systems, **reducing manual reporting effort by 30%**.
- Collaborated with backend developers, UI designers, and business stakeholders to ship features across 3+ business workflows in a live enterprise environment.

Full Stack Developer **Sep. 2024 – May 2025**
Codeworkss *Mumbai, India*

- Created a Gym Management application using MySQL, Express.js, React.js, Node.js, Redux Toolkit, and Tailwind CSS to manage members, visitors, and attendance.
- Engineered REST APIs with JWT-based authentication and optimized MySQL data models for secure, efficient operations.
- Designed responsive React dashboards and reusable components with Redux state management.

PROJECTS

AI Diet Planner *Python, FastAPI, Gemini API, LangChain*

- Developed an AI-powered diet planning feature that generates personalised plans using LLM integration and structured outputs.

KBC-Style Quiz Application with Leaderboard *React, Node.js, Express.js, MySQL*

- Implemented a Q&A quiz app with a live ranking board, using a React frontend, Node.js backend, and MySQL database.

Personalised Video Framer (Pharma Campaigns) *Python, FastAPI, FFmpeg, MySQL*

- Engineered a FastAPI app where medical reps pick a doctor, upload a vertical video, and get a branded 9:16 framed video generated with FFmpeg.

EDUCATION

B.Sc. in Information Technology **June 2019 – May 2022**
University of Mumbai | Keraleeya Samajam's Model College (Autonomous)
